

North Salem Math Club

North Salem Math Club meetings will be held every Thursday, and there will be refreshments available to participants. Students of all grades and math levels are invited to join. The math club will provide students with opportunities to attend math competitions where they can earn awards for placing highly. Our goal as a club is to strongly represent North Salem's brightest minds for those seeking for students like ours, and to help all students be more successful in their mathematics studies.

Math Club will cover such activities:

- Homework review
- Competing in the monthly Math League events
- Short lessons on math history and advanced concepts
- Team problem sets (from past competitions)
- Games and math puzzles

The Math Club at North Salem is not exclusively meant for students that already excel at math, but also students who are struggling or would like help. At the Math Club, there will always be someone there to offer you tutoring or assistance with a problem. On occasion, we may also have guest tutors to join us.

The first math club meeting will be **September 22nd**.
